

BRISTOL SYRUP COTM

No.17 WATERMELON

THE SYRUP

The newest addition to the Bristol Syrup Company range, our watermelon syrup is delightfully juicy and refreshing. Made with real watermelon juice, it pairs beautifully with gin or adds some pink to your non-alcoholic drinks. Find some delicious tried and tested recipes below to give you a starting point.

We're proudly supporting the amazing breast cancer awareness charity CoppaFeel! By donating 50p from the sale of every bottle. The money raised will go towards materials, services and campaigns to educate and remind people to check their boobs/pecs and supporting their mission of ensuring all breast cancers are diagnosed early and correctly.

Bristol Syrup Company is a collaboration between Bristol based syrup experts and award-winning cocktail bartenders. The syrups are all made in Bristol and created specifically for cocktails. They range has been designed by Dee Davies (creator of Jinzu gin) and Danny Walker (co-creator of Psychopomp & Circumstance distilleries) to replicate the homemade syrups made in good cocktail bars.
